

CONFIRMATION OF SECURITY ASSESSMENT

for
Location Risk Intelligence

of
Munich Re Service GmbH

HvS-Consulting AG acknowledges that the services “Location Risk Intelligence”, “Location Risk Intelligence API” and the “On-Demand Location Risk Intelligence” are implemented and operated on a level that fulfills all state-of-the-art requirements for a secure and trustworthy platform.

This confirmation is based on a security assessment which took place in November 2023. It was realized as technical penetration test based on the common standard OWASP Application Security Verification Standard 4.0.3 – Level 2.

**After completion of the security assessment,
no severe security vulnerabilities have been identified.***

Munich, January 2024, HvS-Consulting AG

*It shall be stated, that due to the high complexity of the involved systems new vulnerabilities and flaws are discovered and published on the Internet on a daily basis. This confirmation can only cover the situation at the time of writing and cannot predict future vulnerabilities.
